We are on the Nashville State Community College campus at 120 White Bridge Road.

Note that using GPS alone to find the address may take you to Stein Mart about half a mile away, so these directions are useful to find the studio the first time.

Here's what I recommend to find us:

**Weekday Directions to NECAT**

1. Take the campus entrance that has a red light (there are 2 entrances---one with a red light and one without).

2. Come all the way around to the back of the campus where the big parking lot and all the cars are to your left.

3. About in the middle of this parking lot, up near the long, low Student Services Center, you will find parking spaces labeled PEG STUDIOS.

4. Park there and go in the main glass doors of the Student Services Center.

5. Walk straight through the lobby and out the other side. This puts you back outside in the "quad"

6. You will see a building labeled PEG STUDIOS in front of you and a little to the right. There's a groovy NECAT logo on the door. Just ring the doorbell and we'll let you in.

If you have any problems, just call our main line, 615-354-1273.

**Weekend Directions to NECAT**

If you're visiting us on a Friday evening or over the weekend, please use these directions as most campus buildings are closed during these hours.

1. Take the campus entrance that has a red light (there are 2 entrances---one with a red light and one without).

2. Come all the way around to the back of the campus where you will see a big parking lot to your left.

3. Turn left into this parking lot and drive up close to the buildings.

4. Park near the small semi-circular drive between the Student Services Center ("S Building") and the Kisber Building ("K Building").

5. Walking, take the sidewalk into campus at this small semi-circle drive. This puts you in the "quad" at the middle of campus.

6. Straight ahead and a little to the left, you will see a building labeled PEG STUDIOS. There's a satellite dish on the roof and a groovy NECAT logo on the door.

If you have any trouble, please call the Studio Line (615) 354-1731 rather than our main office line (because the NECAT office is closed during these weekend hours).
